- Aided with QA Testing & deployment, actively engaged in code review.
- Conducted daily standup and sprint retrospective meetings.

PROJECTS

Personalized AI Chatbot - React, Next.js, HTML/CSS, OpenAI API, Redis

Chat With Henry Link

- Developed an interactive chatbot-style website that runs a gpt-3.5 model fine-tuned on personal information.
- Designed to provide recruiters and interviewers with a unique and engaging platform to learn more about personality, skills, experiences, and other projects.

Fantasy Football Score Predictor - Python, Flask, HTML/CSS, jQuery, Sci-kit Learn

Fantasy Foresight Video Demo

- Developed a webpage utilizing machine learning algorithms to generate accurate fantasy football score predictions for the current NFL week.
- Achieved a high level of accuracy, with predicted scores consistently within a 3-point margin of actual scores.
- Includes real-time player status from ESPN, autofill suggestions based on user input, and a table format to view historical fantasy football data sortable by 20+ columns.

Twitter Bot - Python, Cron, Twitter API, GitHub actions

@PatentArtBot

- Created a personal Twitter bot that tweets out a random US patent each hour, sourced through Google Patents.
- Tweeted 9,000+ unique patents with 13,000+ posts since December 2022.
- Tweets include the patent name/number, current owner, 1-4 pictures, a link to learn more, and a thread involving an abstract if available.

TECHNICAL SKILLS

- Languages: Python, Java, HTML/CSS, JavaScript, TypeScript, jQuery, SQL, C/C++
- Technologies: Git, Docker, Jenkins, AWS, Jira, Figma, GraphQL, Node.js, RESTful API
- Frameworks: React, Next.js, Angular, Flask, Spring Boot
