WORK EXPERIENCE

WeGo Golf   **Charlotte, NC**
Contract Full stack Engineer   *April 2025 – Current*
- Independently built a full-stack internal operations system from the ground up, covering event planning, employee scheduling/management, time tracking and reporting.
- Integrated Google Calendar to support real-time event syncing and reminders.
- Implemented Supabase RLS policies to restrict data access & functionality based on user roles and permissions.
- Tech stack: React, Supabase, Cloudflare, and Google APIs.

FieldServio   **Charlotte, NC**
Full stack Engineer   *March 2024 – Current*
- Became the team's top contributor within 3 months and have remained consistently high-impact since.
- Overhauled UI across a mix of React & legacy .NET apps, improving usability and maintainability.
- Refactored our payment system, simplifying the way we handle customer funded deposits & credits in relation to invoices; removed multiple stored procedures/API routes in the process.
- Helped with implementing multi-currency functionality across our entire system, impacted all core functionality; enabled the company to expand into international markets.
- Play a key role in all major releases, tackling all regression defects & bugs while completing regular feature tickets in the process.
- Optimized performance of critical SQL stored procedures and LINQ queries.
- Wrote internal tools and QA scripts to speed up testing and reduce time spent staging data.
- Review code and mentor newer developers.

Vacasa   **Charlotte, NC**
Software Engineer Intern   *June 2022 – August 2022*
- Collaborated as a member of the finance operations team which maintained a Revenue Processing System that processed over $1 billion in annual revenue.
- Participated in the agile development of new features for the Owner Statement system which paid a daily average of $3 million to 40,000+ property owners.
- Managed AWS S3 bucket/VPC configurations using Terraform.
- Aided with QA Testing & deployment, actively engaged in code review.

PROJECTS

Personalized AI Chatbot - *React, Next.js, HTML/CSS, OpenAI API, Redis*
Chat With Henry Link
- Developed an interactive chatbot-style website that runs a gpt-4o-mini model fine-tuned on personal information.
- Designed to provide recruiters and interviewers with a unique and engaging platform to learn more about personality, skills, experiences, and other projects.

EDUCATION

Appalachian State University   **Boone, NC**
BS Computer Science   *August 2020 – December 2023*
- 3.5/4 GPA, Cum Laude
- Appalachian State ASCII Club Member
